THE MISSISSIPPI.

The Channel Continually Being Relieved by Breaks.

What May Be Expected in the Region of the Deltas.

The Louisianians Making a Hard Fight Against the Flood Along the Morganza Levee—Fourth Week of the Great Flood and the Outlook Is Yet Gloomy. Exaggerated Reports Sent Out.

CINCINNATI, April 4.—A special to The Enquirer from New Orleans Wednesday night said:

The water has ceased rising in Greenville, and it is thought that it can be kept out of the business section and the southern portion of the town. Greenville, however, is completely cut off from railroad communication with the rest of the country, and now gets its mail by the river.

The city council will take measures to relieve the distress likely to prevail in consequence of the overflow. There seems to be little hope of holding the Bedford levee in Madison Parish, La., which is sloughing badly. To prepare for the expected break a new levee is being constructed 2,000 feet back of the present one, so that when the break comes an overflow will be prevented. The levee at Miller's bend, ten miles above Greenville, is reported very weak, and can scarcely be saved.

Making a Hard Fight.

The hardest fight being made against the river is at Morganza levee, Louisiana, which protects half a dozen parishes, and is the most important levee on the Mississippi. Here a force of 250 convicts and 150 laborers are working night and day, and has always been. The levee is a dangerous one, being built over sand. It has so far held, but it is admitted that it could not stand rise of a foot. Its break here would cause more damage than all the others put together, because the land that would be overflowed is planted in sugar cane, and the seed being already planted, would be destroyed, while the cotton lands can be planted after the flood goes down.

Six large sugar plantations in St. John's parish are overflowed by the Nita break. The backwater from the Atchafalaya and Grand rivers is flooding some cultivated lands in Pointe Coupee and Iberville, and causing a great deal of trouble. The Tensas and Black rivers are bank full and still rising, and will soon be overflowing their banks heavily.

All the streams in the Yazoo delta are flooded from the crevasse waters. State Engineer Richardson, who has just thoroughly inspected all the Louisiana levees, reports them in good condition, but says that the chief danger is that the people will relax their vigilance now that the river is falling.

Another attempt—the third—is to be made to close the Live Oak crevasse. The river here has remained stationary to-day, but has fallen thirteen inches in ten days, and the indications are that it will fall to-night.

All danger here has passed. The planters are still opposed to the issuance of government rations to sufferers, thinking it will cause much demoralization among the colored people. In nearly all instances the planters are supporting their hands so as to keep them for the planting season, which begins immediately. In the towns municipal assistance is being given.

In Arkansas Governor Sagle has started a relief fund for the sufferers. The worst victims of the flood have been the colored people recently imported from North and South Carolina to the Delta lands, who seem to be completely panic-stricken by the flood and the difference between Mississippi and their old homes. There is a great deal of exposure among the colored people crowded on the levees, but fortunately the weather is favorable. A systematic attempt is now being made to save the stock in the districts flooded, or likely to be flooded, and good work has been done.

ABANDONED.

The Inhabitants of Huntington Completely Desert It.

Huntington has been completely abandoned by its 500 inhabitants, about half of whom, with some of their stock, are crowded together on the levee suffering from exposure, sickness and destitution. The others are living more comfortably in box cars. Many houses have floated away. Some 1,500 residents of the neighborhood are also crowded upon the levees or have fled to the highland.

Elsewhere.

A similar condition of affairs prevails in nearly all the country around the break. The backwater is spreading far into the interior. The Skipwith break increased yesterday to 750 feet, the Nita crevasse to 1,100 and others in proportion. The situation below the Red river crevasse is much improved, but between that point and Helena the outlook is very gloomy.

GREENVILLE, MISS.

Not in Great Danger and Inhabitants Able to Care for the Suffering.

GREENVILLE, Miss., April 4.—The Greenville Cotton Exchange, having learned of the sensational and alarming reports as to the state of affairs in Greenville being telegraphed to the northern papers, desires to contradict any such statements and to assure their friends, correspondents and the public generally that Greenville is in no danger of disaster. The overflow from the crevasses above has submerged the lower levels of the city to the depth of one or two feet.

The business and residence portions of Greenville are high and dry, and the water appears to have reached its maximum height. Everything necessary is being done to prevent any actual distress among the residents of the overflowed district, and Greenville is abundantly able and willing to provide for any cases of actual need. Our bankers, merchants and other citizens who join with the Cotton Exchange in this dispatch are not in any alarm as to serious results from the overflow.

An Appeal for Tents.

VICKSBURG, Miss., April 4.—The relief committee at Arcola, Miss., in Washington county, telegraphed here Wednesday night for fifty tents to be sent there at once. There being no tents in the city the order could not be filled. This is the first appeal for relief from any organized body yet received here.

AT ARKANSAS CITY.

Fourth Week of the Great Flood—Little Prospect of Abatement.

ARKANSAS CITY, Ark., April 4.—This is the fourth week of the great flood, and there is very little prospect of its soon abating. The water is going back into the river wherever there is a break in the levee. Plantations in this section never overflowed before are now submerged.

The reports of distress among the inhabitants of the overflowed districts in Arkansas have been exaggerated, though at Laconia there is much suffering.

The track of the Valley road between McGhee and Trippe is five feet under water. The Yuchita division of the Valley route is almost completely under water for a distance of eighteen miles. A number of railroad bridges have been washed away. A considerable portion of the new road, the Houston, Central Arkansas and Northern railroad, is under water.

At Helena, Ark.

HELENA, Ark., April 4.—When the levee broke above Helena on the Mississippi side it was confidently expected that the one at this place would be greatly relieved, and that the water would fall sufficiently to make way for the coming rise. As yet, however, we have received but little relief. It is due to the rain that has been constantly falling that the fall is not more rapid. It is thought that there will not be a substantial decline in the river at this place for four weeks.

NEGROES REFUSE TO WORK.

They Prefer to Subsist on Government Rations and Other Relief.

MEMPHIS, April 4.—The condition of the flooded district, on the Mississippi side, between Tunica and Greenville, remains unchanged. Prominent planters from the delta deprecate the sensational reports which have been sent out relative to the suffering of the people.

They are able, they say, to take care of their hands without assistance, and are offering them large wages to remain and work on the levees. But the negroes, with the prospect of being fed and cared for by the government and the various relief expeditions, are indifferent, and in some instances refuse to work at any price.

The crevasse at Austin is widening slowly, as the water is running through much slower.

Greenville is still partially under water and little business is being done. There is no suffering nor need of outside help.

GREATLY EXAGGERATED.

Many of the Reports Sent Out by Newspaper Correspondents.

NEW YORK, April 4.—The World has dispatches from the mayors of Memphis, Helena, Arkansas City, Greenville, Vicksburg, Bayou Sara and Natches which are to the effect that the reports concerning the floods on the lower Mississippi have been greatly exaggerated, and that there is very little danger of loss of life. Live stock will probably suffer somewhat but the crops will be all right.

IN AID OF A NAVY.

Bill to Put Our Merchant Marine on an Equality with That of Other Nations.

WASHINGTON, April 4.—The house committee on merchant marine and fisheries, through Chairman Farquhar, Wednesday reported "A bill to place the American merchant marine engaged in foreign trade upon an equality with that of other nations." The principal provisions of the bill have already been given. The report accompanying it says:

"The ocean transportation of the United States averaged \$240,000,000 annually for the past ten years. Taking our share of the trade at 75 per cent, we have an amount of \$180,000,000, 10 per cent. of which \$18,000,000. Surely it would not be a bad investment for the nation to pay out \$18 annually to secure an opportunity to earn and save \$180.

"There are no appropriations made that would pay so well as this would do. But if this is thought too large, then make it 5 per cent. That would be double what the bounty bill will call for in ten years to come. The estimate of the committee is that under the terms of the bill the payment in bounties for the first year would be for sail vessels, \$1,644,818; steam vessels, \$1,715,922; total \$3,360,741. The annual increase would be about 5 per cent., so that it would be eight years before the annual bounty would amount to \$5,000,000."

The minority recommends that the bill for the free admission to American registry of ships built abroad be substituted for the bill reported by the committee.

INDIANAPOLIS, Ind., April 4.—Speculation is rife here over the arrival in this city yesterday of a number of railroad magnates, among them being William K. Vanderbilt, H. N. Twombly, C. P. Huntington, Calvin Brice and Gen. Echols, vice president of the Chesapeake and Ohio railroad. The object of this visit is not at present known, but it is believed to be an important railroad deal.

THE MCKINLEY BILL

Endorsed By the Wool-Growers' National Association

In an Address by the President and Secretary.

The Co-Operation of the Members of the Organization Urged in Aid of the Bill, as Being Protective of the Interests of Agriculture and Labor—Tobacco and Leather Men Protest.

WASHINGTON, April 4.—The following address to the wool-growers of the United States has been issued by President Delano and Secretary George H. Wallace, of the National association:

To the wool-growers of the United States: The committee of ways and means have adopted the following schedule of duties on wools: Unwashed—Class 1, eleven cents per pound; Class 2, twelve cents per pound; Class 3, costing over twelve cents per pound, eight cents; costing twelve cents or less, three and one-half cents per pound. Washed of Classes 1 and 2, double duty. Scaled of Classes 1 and 2, and of Class 3, costing over twelve cents per pound, triple duty—of Class 3, costing twelve cents or less, two and a-half times the duty on unwashed.

The bill defines unwashed and washed wools, in accordance with American practices, and as secured, when washed in any other manner than on the sheep's back. It also provides for advancing Class 3 wool, when improved by the admixture of Spanish or English blood, to the first or second class, as the case may be, and contains other provisions against fraudulent practices, which will secure the full benefits, of the above rates. We have deemed it advisable to withhold this notice until we could speak with certainty, but we have been ready at all times, if danger seemed imminent, to inform you and call for assistance.

The time has now arrived to notify you of events and solicit your aid in securing the passage of the bill as reported.

The wisdom, justice and patience displayed by the Republican members of the committee in discharging their delicate and difficult duties, challenge the approbation of the American people. The bill establishes a comprehensive economic system, embracing all our industries, and especially those belonging to agriculture and the farm. If passed it will revive business, give employment to labor and restore prosperity, and thus silence the cry for free trade and free raw material, except as it may come from foreigners and their coadjutors, who desire to control our markets and thus prosper by the misfortunes of our people.

Never before in the history of legislation were the interests of agriculture and labor so well provided for.

Immediate and energetic efforts on your part to secure the passage of the bill in both branches of congress is an imperative duty, the neglect of which will afford reasons for regret. The voice of wool-growers and of other agricultural interests should be heard in the halls of legislation, immediately and with emphasis urging the passage of this bill, called "The McKinley bill."

Address members of congress by telegram, by letters, by resolutions wool-growers' and other associations, and by petitions, insisting upon early action.

Do not permit "free traders," "importers" and their "allies" to defeat the beneficent economic system proposed. The time has arrived, if we do our duty when we can secure the prosperity of American industries. If we neglect to do so the opportunity may not soon return.

C. DELANO, President,

GEORGE H. WALLACE, Secretary,
Wool-growers' National Association.

New England Leather Men Not Pleased.

Representative Candler Wednesday received a petition from the New England Shoe and Leather association, which he states is the strongest petition which has been sent to him since he has been in congress and which he has filed with the committee on ways and means. The petitioners express their belief that any duty imposed upon raw hides and skins would be very detrimental to one of the largest business interests of New England and the middle states, and that it would increase the cost to the consumer of every pair of shoes produced in this country. It is also their opinion that the imposition of any duty would cause great embarrassment to the large export trade, now amounting to almost \$12,000,000 annually, and would tend to drive it to the Dominion of Canada, where labor and the materials for tanning are much cheaper than in the United States.

Protest From Tobacco Manufacturers. A large delegation of tobacco manufacturers from the south appeared before the committee on ways and means Wednesday and protested against the tobacco schedule of the McKinley tariff bill. They represented that if the proposed provisions were enacted into law the effect would be to utterly ruin the tobacco industry at Key West.

DEPEW ON THE SOUTH.

Striking Sentences from His Speech at Chattanooga.

CHATTAHOOGA, April 4.—Chauncey M. Depew, of New York, who has recovered from his late illness and is on his way home from Florida, spent Wednesday in Chattanooga. A public reception was given Mr. Depew at the opera house, where he delivered a magnificent oration on the south as he finds it, from which the following extract is taken:

"In studying the south I regret I have never been in the south before. I have been looking, not so much at its natural development as to its people, their sentiments, their methods of life; as to where the differences occur between the northern and southern American, if any exist. I am glad to say that my observation led me to the conclusion that in all the elements constituting good citizenship, honest patriotism and intelligence, there is no difference. [Applause.] I have been led to

form another conclusion on this visit—one which has been impressed upon me—a conclusion which may seem harsh in the first statement, but history and historical philosophy will declare it good judgment. Providence moves in a mysterious way, and impresses upon the people that it is only through fire and water, suffering and sacrifice, that they can arrive rapidly at magnificent results. As to the civil war, after you have forgotten its passions, after you have buried in a common grave all vindictiveness and strife, after you have recovered from the sorrow of personal loss, you will reach a philosophical frame of mind, and can calmly view the war and its results. The civil war advanced the United States of America more than 100 years in the four years in which it was fought. Without the civil war there never would have been that unification of the people in one common civilization with no difference up many questions vital to society dividing them. Without the civil war there would never have been that common devotion to a common land and to the stars and stripes. Without the civil war and its results there never would have been this superb development, of which Chattanooga is the most magnificent example, and you would still be a wayside station, your coal and iron buried in the earth, your population a thought and unknown, your wealth a possibility and your great material strength undeveloped." [Applause.]

CORBETT AND SULLIVAN.

Only Conditions Under Which the Former Will Fight—Joe McAuliffe Will Challenge the Winner.

NEW YORK, April 4.—Jim Corbett, or the California Wonder, as he has been styled since he defeated Kilrain, when spoken to about his proposed contest with John L. Sullivan, said: "I am willing to meet Mr. Sullivan in any business offer he may be pleased to name, to arrange the terms for a four-round contest with gloves. I have been told that he has expressed a desire to meet me. There need be no difficulty in making the contract if Mr. Sullivan will agree to fight me within two weeks. This is the only stipulation that I must insist upon. My leave of absence has nearly expired, and it is imperative that I return to my duties at the California Athletic club. If Mr. Sullivan will agree to the time stipulated I feel sure that a match can be arranged."

Corbett spoke throughout the interview with modesty—in fact it was a difficult matter to get him to say a word about the contest, for fear, as he said, people would think him boastful. When asked if he could not get his leave of absence extended, he said: "No, my position is a good one, and may pay me \$200 a month for the rest of my life, and I value it too much to risk it. I am also anxious to get home to my wife and family. If a fight is arranged it must take place within the stipulated two weeks."

The Club is Willing.

SAN FRANCISCO, April 4.—The Olympic club, of which Jim Corbett is one of the professors of boxing, Wednesday night agreed to let the Californian meet John L. Sullivan in a four-round contest with gloves. This is all that was needed to insure a meeting between the two. The opinion generally prevails here that Corbett will hold his own in the coming contest, but would not be in it with Sullivan were the match one to a finish.

After the Sullivan-Jackson Fight.

RICHMOND, Va., April 4.—A movement has been started here among sporting men to have the Sullivan-Jackson fight take place in Virginia. It is believed that the men can legally fight in this state under the auspices of the Norfolk athletic and sporting club, recently incorporated by the legislature.

Joe McAuliffe.

SALT LAKE, Utah, April 4.—Jack and Joe McAuliffe are on their way to Chicago. Joe McAuliffe said Wednesday that if the Sullivan-Corbett fight took place he would challenge the winner. If not, he would issue a challenge to Sullivan to spar ten rounds for a purse of \$2,500.

McCOY-HATFIELD.

The Feud Breaks Out Anew—One of the Hatfields Shot.

WHEELING, W. Va., April 4.—Information reached this city Wednesday stating that Jerry Hatfield, a cousin of Anse Hatfield, became engaged in a quarrel with M. C. Lee at Logan C. H. on Saturday night, which resulted in Lee shooting him with a Springfield rifle, inflicting a wound which will probably result in his death, if it has not already done so. Lee at once left for parts unknown, and has not yet been apprehended. Hatfield is a prominent merchant of Logan C. H., and was formerly a deputy sheriff of Pike county, Ky. The killing, if such it proves to be, was entirely the result of a personal altercation, and is not to be attributed in any way to the famous Hatfield-McCoy feud.

Killed at a Dance.

PITTSBURG, April 4.—At a general row at a dance at Caperton, W. Va., Tuesday morning, Howard Ernest was instantly killed, and William G. Lee and William Derico were fatally shot. All the parties were colored men. Others were injured more or less seriously, and several arrests have been made, but Daniel Moss, who is supposed to have done the killing, has not yet been apprehended.

To Abolish Capital Punishment.

ALBANY, N. Y., April 4.—In the assembly Wednesday a bill to abolish capital punishment in this state was advanced to a third reading. It was charged that the bill was designed in the interest of an electrical company, whose system has been adopted as the one best calculated to kill capital offenders.

OUR GRAND OPENING,

 SATURDAY, APRIL 5, 

WILL BE AS ATTRACTIVE AS NEW, BRIGHT AND LATEST STYLES OF

DRY GOODS, NOTIONS, FANCY GOODS AND SHOES

EVER EXHIBITED IN THIS CITY CAN BE.

Don't Fail to Come; Everybody Invited.

A. HAYS,

Sutton Street, the Old Bee Hive Stand.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

FRIDAY, APRIL 4, 1890.

If the citizens of Maysville will diversify their business and pay more attention to manufacturing and not so much to merchandising, they will soon bring about a wonderful era of prosperity.

The Government has paid out the enormous sum of one billion dollars for pensions since the close of the war. And the cry for millions more is becoming louder and bolder every year. The enormity of some of the schemes is enough to stagger the thinking people of the land.

When Chicago suffered from the big conflagration in 1871 Louisville contributed over \$200,000 to the sufferers. At last accounts the Windy City hadn't given one cent to the tornado sufferers of Louisville—not even a word of sympathy had been flashed over the wires. Ingratitude, they name in Chicago.

The starch manufacturing trust reported some time ago as being on the eve of organization is now publicly announced as completed. It embraces twenty-one of the leading factories in the East and West, enough to control the market, of course, and rob the people out of a few cents on every pound of starch consumed. And this will put thousands of dollars in the treasury of the trust.

There is a well-defined rumor at Washington City that Senator Beck will soon retire from the Senate on account of ill-health, and that Representative Carlisle will likely succeed him. Mr. Beck has been in the Senate Chamber but very little during the present session of Congress, and it is likely that his days of activity and usefulness are about closed. If he is to retire, Representative Carlisle is the man to succeed him.

If you have not yet joined the Commercial Club, go at once and give your name to some member and thus show that you are interested in the future growth and prosperity of our city. With the many advantages we already possess, there is no good reason why we should not grow, if all will take hold and pull together. We do not want any boom like those some of our neighboring towns have had, but we want a concert of action on the part of all our citizens to promote a healthy and legitimate prosperity to which we are justly entitled. With the hearty support and co-operation of all our citizens the Commercial Club will be able to accomplish great good.

At Home and Abroad.

Mrs. Evaline Hutchins is at home after spending the winter at Daytona, Fla.

Mr. and Mrs. Charles Marshall, of Mt. Carmel, have returned from Florida, where they spent the winter.

Captain M. C. Hutchins has returned from a trip to Daytona, Fla., where he went to accompany his mother to this city.

Councilman Fitzgerald has returned from a visit to his sister, Sister Mary Gonzaga, at St. Mary's-of-the Woods, Vigo County, Ind.

Mr. Geo. W. Morris, formerly of the Republican, came up from Cincinnati yesterday to see his sister, Mrs. Morford, who is still very ill.

Misses Maggie and Lucille Turney, of Paris, entertained a party of friends en masse the other evening in honor of their guest, Miss Lucy Durrett, of Washington.

Mrs. John D. Brewer, of Maysville, came up Wednesday to visit the family of Elias Collins, whose daughter continues quite ill.—Flemingsburg Times-Democrat.

Miss Clara Kerr, of Lexington, Miss Allie Vanderen, of Cynthiana, and Mrs. S. A. Shanklin, of Mayslick, arrived yesterday to spend several days with Mr. and Mrs. P. P. Parker.

Real Estate Transfers.

Wm. Meyers' administrator, by Master Commissioner Cole, to Mary A. Meyers, 108 acres, 3 roads and 2 poles of land on Absalom Creek; consideration, \$925.

Geo. F. Campbell and others, by Master Commissioner Cole, to R. F. Gault, 105 acres, 1 road and 22 poles of land on Shannon Creek; consideration, \$9,511.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50c. and \$1 bottles by all leading druggists.

While some workmen were engaged yesterday in excavating for a cellar at the Edmond's old stand on Second street, Fifth ward, they unearthed an old musket that was hidden there in 1861 by some members of the Home Guard on the occasion of one of the visits of the rebels to this city. It was so badly eaten with rust that it fell to pieces when brought forth from its long resting place. The bullets and buck-shot with which it was loaded were also found.

Small manufacturing enterprises of a diversified character will make any city solid. Let Maysville add to those she already possesses.

River News.

The river continues to fall at this point, but not very fast.

The March coal shipments from Pittsburg amounted to 10,294,000 bushels.

The towboat Fred Wilson, of Pittsburg, is running with the first battery of steel boilers ever made in this country.

Due up: Bostona for Pomeroy and Andes for Pittsburg, at midnight. Down: Sherley and Hudson this evening and Telegraph to-night.

The annual report of the Pennsylvania Railroad Company, which includes 7,844 miles of track, shows it transported in one year 122,164,148 tons of freight and 78,126,957 passengers. To carry that amount of freight on the Ohio River would require 10,167 steamboats of 1,200 tons capacity. To carry passengers, allowing that each boat could accommodate 160 passengers comfortably, it would require 52,000 steamboats to complete the job.—Exchange.

The Educated Horses To-Night.

Professor Bristol's Equestrianism, "at Ford's Grand Opera House, has been called "marvels of equine intelligence," and without doubt they are. They can't talk, but their series of acts and tricks elicit the most rapturous applause, and many a dramatic artist would feel highly honored to secure one-half the plaudits showered on these dumb animals.—Baltimore Telegram.

These educated animals will be exhibited at the opera house to-night. Reserved seat tickets at Taylor's. See advertisement for rates of admission.

Advertised Letter List.

The following is a list of letters remaining in the postoffice at Maysville, Mason County, Ky., for the week ending Tuesday, April 1, 1890:

Alexander, Dr. A. J.	Ross, Fannie
Brown, Mrs. Della	Rosser, Wm.
Bradley, Miss Shortlet	Robinson, Eliza M.
Blunt, J. J.	Rabier, Andy

The Committee on Gas reported in favor of erecting an additional public gas lamp on Forest avenue.

Committee on Proposition and Grievances was authorized to procure the opinion of some competent attorney as to the legality of the payment of the additional 33½ cents a month for each public gas lamp.

Committee on Police reported they had re-instated Deputy Marshal Bland to duty, and that the charges, preferred by Richard Harris, against Marshals Crawford and Downey for sleeping while on duty were tabled. The report was received. So ends the police investigation.

Permits were granted as follows:

J. B. Orr; to erect a frame shop and coal house in the rear of his residence on Third street.

Mrs. Julia Stockdale; to erect a frame addition to her stable on Walnut street, Fifth ward.

The Committee on Internal improvements was instructed to alter and repair the gutter on west side of Market street, between Third and Fourth.

The petition of Amella Cone to erect an addition to her house on Grant street was referred to Committee on Propositions, with power to act.

Mr. Charles White, of the Fifth ward, tendered his resignation as Keeper of the town clock, which was accepted.

N. J. Power was granted auctioneer's license.

The question of purchasing additional hose and a hose cart for the Neptune Fire Company was referred to the Committee on Fire Department with power to receive bids and act.

The Marshal was directed to have all the public alleys kept open.

The Committee on Ways and Means was given authority to borrow \$1,500 for current expenses.

The following ordinance was read by President Cox:

AN ORDINANCE

To provide for the construction of an Electric System of Motive Power by and along the Maysville Street Railroad and Transfer Company.

Sec 1. Be it ordained by the Board of Councilmen of the City of Maysville, That whereas, the Maysville Street Railroad and Transfer Company owns and operates the street passenger railway now constructed in said city, and is desirous and willing to change the motive power thereon, and whereas, for convenient and rapid transit thereon, in order to furnish due accommodations to the public, it is necessary in the opinion of the city authorities to make changes in motive power herein authorized. Therefore, in consideration of the premises and of the improved facilities hereby contemplated, the Maysville Street Railroad and Transfer Company is hereby authorized to construct, maintain and operate for and along the tracks of its said road an overhead electric system of motive power for moving street cars, and to open the sidewalks near the curb lines in the streets along said road, and to place therein the necessary poles and

supports for electric wires and all other necessary fixtures and appliances for the use of electric motive power along the tracks of said road.

Sec. 2. The construction of said electric power system along said road, and all work herein authorized shall be done under the supervision of the Committee on Internal Improvements of the City Council. The supports for electric wires, fixtures and appliances shall be of wood and of the best and most approved pattern, and all wires placed thereon shall be not less than twenty feet above the surface of the streets, excepting the bridge over Limestone and the railroad crossing on Bridge street. The plan adopted shall be of such character as to enable other companies, upon receiving authority from the city, to make joint use thereof and to cross same, but nothing herein shall be construed to authorize any joint use by other companies, without previous payment by them of a due proportion of the cost of construction and maintenance and motive power. That the work herein authorized shall be completed within two years after the passage of this ordinance. Said company shall in the progress of the work replace in as good condition as before any street or sidewalk taken up or disturbed by said construction.

Sec. 3. The schedule time for operating cars over said road by said system shall not exceed ten miles an hour.

Sec. 4. That this ordinance shall take effect and be in force from and after its passage.

On motion of Mr. Fitzgerald the ordinance was received. Mr. Kehoe moved that the matter be referred to the Committee on Laws and Ordinances and the Committee on Internal Improvement, to report at meeting of council next Thursday evening.

The motion was seconded by Mr. Ficklin. Mr. L. W. Robertson appeared and explained the system by which the company proposed to operate the road. It is the Trolley system, one that has proved to be very successful wherever used. The ordinance is similar to the ordinance under which the electric road at Cincinnati is operated. The cost of making the change will be not less than \$10,000. The motion to refer the matter to the committee was carried unanimously.

After attending to some other matters Council adjourned to meet again Thursday evening.

MISS JENNIE PERKINS, of this county, was wedded yesterday at the County Clerk's office to Amos O'Clary a Lewis County widower. Judge Coons officiated.

The rendition of "As You Like It," at opera house Wednesday night was thoroughly enjoyable. Miss Prescott fully sustained the high reputation she has won.

A SPECIAL from Flemingsburg says twenty-five cases of measles in that county have proved fatal. Most of those who have died from the disease were old people.

REPRESENTATIVE MATHERS, of Nicholas County, who has been ill almost ever since the Legislature met, has gone to Asheville, N. C., in hopes of regaining his health.

The State Senate passed the bill yesterday to pay Commonwealth's Attorneys a salary of \$2,500 in lieu of the present salary and all fees. Pro tem attorneys are to receive \$7 a day.

In the Cincinnati Post's contest for the most popular teacher in Ohio, Indiana and Kentucky, Professor A. G. Turnipseed, son of Jacob Turnipseed, of Chester, received 342 votes. He teaches at Moscow.

FOR SALE.—Two five-room frame houses north side Race street, Chester. Lots 33 by 150. Price \$1,000 each. Terms easy. Also a one-story frame near Mitchell's Chapel, lot 30 by 120. Price \$600. ts PRANCE & DULEY, Agents.

The little steamer, City of St. Paul, that was here last season with a ten-cent circus was wrecked at Island No. 8 on the Mississippi by the storm a few days ago, and is a total loss. Part of Edwards' menagerie, which was aboard, was also lost.

DIED, Thursday, at his home near Shannon, Mr. T. B. Arthur, one of the old and successful farmers of that section. He had been in feeble health a year or more. Funeral Saturday afternoon at 2 o'clock at Shannon Church, services by Rev. Dr. Anderson.

We are requested to ask if any one in town has an account of the dedication of the Child's Fountain on Stratford-on-the-Avon and will loan it. If so, please leave it at this office for the party desiring to read it. It will be carefully handled and returned in perfect order with many thanks. It

TWELVE indictments were reported at the present term of the Nicholas Circuit Court—unlawful gaming, 1; concealed weapons, 3; fornication, 2; shooting at another, 1; selling liquor to minors, 2; violating local option law, 1; keeping bawdy house, 1; disturbing religious worship, 1.

The Herald says "Boston has seen some wonderful performances of educated horses, but never any which surpasses the one under the direction of Professor Bristol. The tricks and antics of these horses are simply amazing." See them at the opera house to-night, to-morrow afternoon and to-morrow night.

UNANIMOUS.

The London Press' Denunciation of Emin Pasha For Having Entered the Service of Germany

To Organize an Expedition to Return to the Province He Formerly Governed. He Has Never Forgiven Stanley for Having "Rescued" Him—Revolt in Riazan—Other Foreign News.

LONDON, April 4.—The London press are unanimous in bitter denunciation of the ingratitude displayed by Emin Pasha in entering the service of Germany and organizing an expedition to return to the equatorial province he formerly governed. Though great stress is laid upon his nullification of the work done by Stanley in rescuing Emin from his perilous position and conducting him in safety to the seaboard it is quite obvious that the inspiration of the articles is borne of alarm at the prospects of German interference with English interests in Africa, and that if those interests were not menaced Emin might go whither he pleased without the slightest objection on the part of anybody in England.

It is perfectly well known that Emin has for some time past been desirous to return to his province, and it is equally well understood that he has never forgiven Stanley for "rescuing" him, or, to put it plainer, for making his desertion of his post and journey to Bagamoyo a matter of compulsion. While nobody is surprised that Emin has entered the service of Germany, it is nevertheless a matter for regret that he has done so.

Sir Francis De Winton's Views.

The Pall Mall Gazette publishes an interview with Sir Francis De Winton, president of the Emin Bey relief committee. Sir Francis, after expressing bitter indignation at the course pursued by Emin in giving the benefit of his African experience and knowledge to Germany, declares that he has in his possession letters from Emin in which the latter begs to be relieved from his precarious position at Wadelai. Sir Francis De Winton regards Emin Bey as a man absolutely devoid of either gratitude or generosity, and asserts that his action in cutting away from Stanley and the English will lower him in the estimation of the civilized world.

Bloodshed Imminent.

LONDON, April 4.—The correspondent of The Telegraph at St. Petersburg says the peasantry in the government of Riazan are revolting and bloodshed is imminent. The agitation is spreading to Finland and Russian Poland, and a strong force of gendarmes and Cossacks has been sent to quell the disorder and allay the excitement, which is intense. The inhabitants of the disturbed regions are in full sympathy with the students.

Wants Britain to Imitate America.

The Morning Post, a semi-official organ, advises the government to stop building ironclads, which soon become useless, and to imitate the marine policy of the United States in constructing fast cruisers like the Chicago.

Causes Anxiety.

The Pesther Lloyd says that the fact that Emperor William has decided to base his foreign policy on friendly relations with Russia, thereby following the advice of his grandfather, causes anxiety as to the durability of the dreibund.

Collapse of a Grand Stand.

During the races at Fowey, Cornwall, Wednesday, the grand stand collapsed. More than 500 persons were thrown to the ground, a distance of thirty feet, and many were injured, some, it is feared, fatally.

Two Emperors to Meet.

The Vienna correspondent of The Chronicle says the maneuvers in Hungary in September next will be attended by Emperor William, and he will meet Emperor Francis Joseph.

Servia and Bulgaria.

The Times' Vienna correspondent, in a dispatch to that paper, declares that diplomatic relations between Servia and Bulgaria have been entirely broken off.

Queen Victoria.

AIX-LES-BAINS, April 4.—The Queen of England, who is now sojourning here, is enjoying good health. She drives daily. It is expected she will return to England by way of Switzerland, Germany and Belgium, and that she will stay several days at Darmstadt, Germany, where she will meet Emperor William and Empress Frederick.

Foreign Notes.

A boiler exploded at Lefevre's distillery at Aras, France, Wednesday, killing three men. The explosion set fire to the building.

It is learned from reliable sources that the report of the czar having been attacked by a sudden illness is untrue. The czar is in perfect health.

Dom Pedro, the ex-emperor of Brazil, has refused to accept the proceeds of the forced sale of his Brazilian property, ordered by the provisional government.

It is said that Count Herbert Bismarck is married to the Princess De Consolat, with whom his peculiar relations caused such a scandal in Berlin nine years ago, and brought about her divorce.

An official connected with the postoffice in Berlin has been sentenced to one year's imprisonment for trying to sell a draft for 10,000 marks (\$4,750) which he found in a German newspaper, mailed in America. He offered to sell it for 600 marks in a saloon, and was promptly arrested.

Joliet Quarrymen Strike.

JOLIET, Ill., April 4.—About eighty-five stone quarrymen went on strike Wednesday for an increase from fifteen to seventeen and one-half cents an hour. Trouble is anticipated unless the strikers' demands are acceded to. The sheriff has been notified and a posse has been summoned to be used in case of trouble.

GRAND HAVEN, Mich., April 4.—During a quarrel with his wife Wednesday, Michael Millman, a farmer, living a mile east of Agnew, Ottawa county, seized a shotgun and shot her dead. The murderer fled and officers are in pursuit.

NEWS IN BRIEF.

Consolidation of interesting items on various subjects.

They are wondering at Fern, Ind., what has become of Frank Elvin.

Paul Siffert accidentally killed himself at Newark with a Flobert rifle.

A beer wagon and contents were demolished by women at Farmington, Mo.

Almer Falls fell through a treble near Covington, Ind., and was fatally injured.

Mr. Ann Kise, aged 70, of Vincennes, Ind., fell in a fireplace and was burned to death.

The Australian ballot system was successfully tried in local elections in Missouri.

A son of ex-Governor Lowe, of Indiana, was killed while coupling cars at Hopkinsville, Ky.

Constantine Kemper, a saloonist at Pana, Ill., suicided because everybody asked credit for drinks.

Morits Grether, a Canton, O., saloonist, was fatally shot by a drunken man who he refused to serve.

Furnace No. 3 of the Debardeleben Coal and Iron company at Bessemer, Ala., was blown in Wednesday.

At New York Isaac Wirmer, a retired Jewish rabbi, died Wednesday, aged 100 years 1 month and 14 days.

There is strong opposition to the new tariff bill in the east and south. There is a lively kick on silk, sugar and hides.

White Caps near New Castle, Ind., have warned Holman Davis, a colored man, to leave the country. He will resist.

The California Athletic club has matched George LaBlanche and young Mitchell to fight June 27 for a purse of \$3,000.

The commandant of the Brooklyn navy yard has received orders to put the United States steamship Enterprise out of commission.

Rumor has it that Jay Gould will establish a steamship line from the United States to Mexico and Central South American ports.

Congress has appropriated \$102,000 for a zoological garden in the District of Columbia, a sort of ornaient, as it were, of the congressional bear pit.

An ice trust has been formed by Chicago dealers and prices were advanced Tuesday 25 to 50 per cent. over the figures current at this time a year ago.

The validity of the Virginia meat tax law was argued in the United States circuit court at Norfolk, Va., Tuesday. Decision will be rendered Monday next.

Two young Anglo-Canadians, James Gibbs and Robert Rogers, were arrested at Montreal, and sentenced to six years' imprisonment for insulting the French flag.

The articles of agreement for the season's athletic sports between Harvard and Yale universities at Princeton from participation in the great collegiate contests.

At Savannah, Tenn., Henry Love and his son, aged 10, have surrendered themselves to Sheriff Gounce for the killing of Guile Hodge, a blacksmith living at Clifton, Wayne county.

Evan Novagratz, a Norwegian, aged 21 years, was drawn into an ore-crushing machine at the Vulcan iron works at Pittsburgh, and almost instantly his body was ground to a pulp.

Near Dayton, Wash., Henry Sanders, 14 years of age, shot and instantly killed Della Eddington, a young lady aged 17, and then blew his own brains out. Jealousy was the cause of the deed.

Mrs. Suell-McCrea, the daughter of the murdered Chicago banker, already regrets her elopement to Europe with Douglas Green, and talks of supporting herself by going on the stage.

George W. Morris, a young man from Chicago, was sentenced at New York, yesterday to ten years and eleven months in state prison for outrageously assaulting a little 14-year-old girl.

Harold St. John, who claims the fencing championship of the United States, Tuesday defeated Sergt. William Williams, late of the British life guards, in a fencing match at New York, winning four bouts out of five.

It is announced that both Premier Greenway and Attorney General Martin have resigned their positions in the Manitoba government, and Col. McMillan, member for Winnipeg, will be called on to form a new cabinet.

In the wreck of a freight train on the Cumberland Valley railroad near Martinsburg, Engineer Thomas Lightcap was caught under his engine and one side of his body and face was terribly burned. He and his fireman will die.

A portion of the dam on the Little Kanawha river at Palestine, W. Va., gave way Tuesday, making a break from sixty to 100 feet wide and drawing the third pool for ten miles. Navigation will be suspended by the break till the last of June. The damage is fully \$20,000.

A Chicago newspaper says it has from an entirely trustworthy source that the recently formed school book trust among the leading publishers of the country has determined on a horizontal reduction of 25 per cent. in the price of all school books, the cut to go into effect May 1.

Maj. James C. Colt, who was nominated for lieutenant governor by the farmers' convention at Columbia, S. C., last week, has written a letter to Capt. Schell, who called the convention, declining the nomination on the ground that he cannot support Mr. Ullman's platform.

Architect E. S. Jennison explained to the Chicago real estate board Wednesday his conception of a big circular building 3,000 feet in diameter, with a central tower 1,400 feet high, to be used for the world's fair. The entire exhibition would be contained in this one structure, which would be in the form of an immense tent.

Mrs. Hetty Green, of New York, does not propose to give up the fight for the possession of a section of land in the town of Cicero, Ill., recently sold to the Grant locomotive works, of Paterson, N. J., for an inadequate price, as she claims. She has filed a bill in court in which she offers to pay \$602,000 for the land.

The Guatemalan consul called upon Collector Erhardt, of New York, and informed him that Michael Colomoe, who was arrested on the steamer La Normandie for smuggling diamonds, pearls and gold watches, should be released, as he was a subject of Guatemala, and being on his way thence was not liable to pay duty at this port. The collector has matter under advisement.

ST. AUGUSTINE, Fla., April 4.—Jake Gaudaur won the three-miles and the mile races here Wednesday afternoon. Hannan was second and Ten Eyck third in the first-named event and Hosmer was second in the mile race.

New Goods! New Store!

Having disposed of all my stock of goods damaged by the late fire, I am now able to announce to the public that I will on Thursday, the 27th inst., open up in my elegant new store room on the N. W. corner of Market and Third streets, in Mayville, Ky., a new and complete stock of Staple and Fancy Groceries, Provisions, Canned Goods, &c., &c. I feel that I am at last able to supply to the people of Mayville and vicinity what they have long needed—a first-class grocery in every respect. I do not propose to quote prices on a few articles less than cost in order to get you to come to my house so I can have a chance to over-charge you on some other article, but by dealing with you fairly and giving you good goods at fair living profits, I shall expect to merit a liberal share of the patronage of the public.

Everybody is invited to call, and a special invitation is extended to the ladies. Country people are invited to bring all their produce to me and make my house their headquarters while in the city. R. B. LOVELL.

HEADQUARTERS

FOR

Horse Supply Goods

And at this time of the year I am prepared to fill all orders for Farming or Plow Horses. Large stock of

HERMANN LANGE, 17 Arcade, Cin. O.

New Stock of Wall Papers!

Sixty-one thousand bolts of Wall Paper our Spring purchase. You will find we have the finest papers ever brought to this city, and also the cheapest. What we had left from last season we will sell at any price, and start the ball rolling by quoting our new purchase of Wall Papers at 5 cents and upwards—elegant papers, too. This is not a removal sale, but our regular prices, and we intend to undersell all others. Call before the rush, as you can select at greater leisure.

GREENWOOD'S PAINT STORE.

CARRIAGES, SURREYS, PHAETONS,

BUCCIES AND DRIVING CARTS.

Those who expect to buy a vehicle of any description (home-made or otherwise) are most respectfully invited to call at our office and factory, two doors west of opera house, and examine the most complete line of Carriage Goods ever seen in Mayville. Our determined purpose is to keep pace with the times by making our purchases exclusively for cash, and in such quantities as to compete with the most astute of the day, thus enabling us to sell all goods fully in accordance with the remarkably low prices farmers are now required to take for their products. Special attention given to Repairing and Repainting work. Edward Myall will be found constantly in the Carriage Repository and Mr. John Porter in the Undertaking Department.

MYALL & SHACKLEFORD.

To the Public.

You are cordially invited to inspect my Spring stock of Millinery. You will find my prices very low. A full line of Dry Goods and Notions, School Books and Ladies' and Children's Fine Shoes, which will be sold at a small profit for cash. ANNA M. FRAZER.
